DETAILED ACTION

Allowable Subject Matter

1. Claims 14-24, and 27 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The instant application is deemed to be directed to a non-obvious improvement over the invention patented in Conklin and in view of Ontology Development for Machine Translation Ideology and Methodology. The improvement comprising, regarding claims 14, 23, and 24, having **only one concept identified as a maximal element, an intentional stance basis** including a subset of the plurality of chains in the directed set, a state vector in a topological vector space corresponding to the selected concepts, each state vector in the TVS including at least one **measure of how concretely the corresponding concept** is represented in **each chain in the intentional stance basis**; a template including the state vectors in the TVS and an **action associated with the template**.

Regarding claim 17, the improvement comprising a directed set including only one concept as a maximal element, and a plurality of chains extending from the maximal element to each concept along the directed links, each of the first plurality of state vectors in the TVS includes at least

one measure of how concretely the corresponding concept is represented in each intentional stance basis chain in a subset of the plurality of chains in the directed set, capturing an impact summary including a second plurality of state vectors in the TVS, comparing the impact summary with the template.

3. **Claims 15-16, and 18-22, and 27** are allowed as their parent claims are deemed allowable.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
